

Access Education Budgets Release Notes

About these Release Notes

Welcome to the Access Education Budgets Release Notes!

This document outlines all you need to know about this version of the software, it will provide you with a brief summary of the changes, and by using the hyperlinks you will be able to easily navigate through the document to find out detailed information about the new features, including screenshots and videos where appropriate.

Please refer to the table of contents for a full list of what is included.

About Access Education Budgets

Access HCSS Budgeting has been exclusively designed by education finance specialists and helps schools and academies plan how to use their money. It can be used to forecast budgets up to five years in advance and allows schools to plan for changing circumstances, such as funding cuts or staffing cost increases.

Schools and academies can use the software for day-to-day budget management but it can also help with deficit recovery.

HCSS Budgeting also links seamlessly with our accounting package, HCSS Accounting, to allow finance teams to track real-time spending against planned expenditure.
