

Handisoft Final Accounts

Release Update

2021.02.01

Version 2021.02.01 released August 2021

- Resolved an issue that non-admin users are not able to select partner/manager and complete the **new entity setup process**.
- Resolved an issue that standard reporting variables with practice information are not displayed correctly in the **reports**.
- Resolved an issue that default flag disappears in **practice users setting**.
- Updated **welcome email** received by the new user during **onboarding process**.
- Minor UI updates to ensure terminology is consistent across Final Accounts.
