

# Access UBS POS

## March 2025 Release Note

# About these Release Notes

Welcome to the Access UBS POS Release Notes!

This document outlines all you need to know about this version of the software, it will provide you with a summary of the changes, and by using the hyperlinks you will be able to easily navigate through the document to find out detailed information about the new features, including screenshots and videos where appropriate.

Please refer to the table of contents for a full list of what is included.

## About Access UBS POS

Access UBS POS is a point-of sale cash register for retail sales, services, and rental businesses. This system can be operated with or without bar code equipment. During the basic transaction, product codes are entered or scanned into the transaction and the screen instantly displays the quantity, price, and product description.

Integration is allowed between Access UBS POS and Access UBS Accounting & Billing.

# Release Summary

Access UBS POS v2025.0

Important Note:

- You will need to disable your Anti-virus before you install the new update as some Anti-virus can interfere and prevent a successful installation.
- After successfully installing the update (whether via Online Update or using the Installer), you must restart your computer for the configuration changes to take effect.

The following major features are included in this release, please select the appropriate links if you would like more details on the features. The features are grouped by Product/Area to help you find the information you need easily.

## eInvoicing

### I&B Integrated POS Users are now allowed to submit eInvoice from I&B

Inventory & Billing integrated POS users are now allowed to submit eInvoice from Outgoing Dashboard in Billing / Inventory & Billing.

# Release Contents

The below section describes the features in more detail, including screenshots and videos where appropriate, this is ordered by the products/modules identified in Release Summary section.

## eInvoicing

### I&B Integrated POS Users are now allowed to submit eInvoice from I&B

Only POS users integrated with the UBS Inventory & Billing or Billing module can view transactions in the eInvoicing Outgoing Dashboard, ready for transmission. Before transmitting, ensure that all necessary setup, configurations and mappings are completed in **Inventory & Billing** or **Billing...Configuration and Mapping**. No setup is required in POS.

Additionally, validation checks have been added to the POS transaction screen. Refer to the table below for details on **eInvoice status and the corresponding actions allowed** within the POS transaction screen.

Implemented validation for e-invoice status action						
Status / Action	Review	Approved / Disapproved	Submitted	Validated	Failed	Consolidated
EDIT	✓	✓	X	X	✓	X
VOID	✓	✓	X	X	✓	X
DELETE	✓	X	X	X	X	X

For more information, please refer to our [quick guide](#).

## General

### Issue Resolutions

Here is the compilation of addressed concerns:

- Fixed an issue where error message "Operator/Operand type mismatch" is prompted when selecting item in cash receipt.
- Fixed an issue where the SR tax code was being automatically applied by default, even when no default tax code was set in the settings.
