Access Ledger
Release Update
2024.02

Version 2024.02 released July 2024

Key Features and Enhancements

- **Digital Assistant**
    - At Access, we're dedicated to continually improving your experience and providing you with the best support possible. That's why we're excited to introduce our latest enhancement to Access Ledger: **Digital Assistant**. For customers on Standard and Premier Support Plans, the Digital Assistant enhances your digital support options and provides a more seamless and convenient experience. As always, our dedicated Support Team are on hand to deal with more complex or technical queries.
- **Tax Reports (for Accountant Charts)**
    - Introduced BAS detail and BAS summary reports.
    - Date filter added for all tax reports to facilitate periodic reporting.
- **HandiLedger Migration Improvement**
    - Import process now migrates to the Handi Accountants Chart of Accounts.
    - Imported datasets now utilise the Accountant Charts source type, with GST journal capability.
- **Bank Feed Improvement**
    - Updated the new connection flow with an option to transfer bank account from another entity/feed.
    - Ability to transfer bank account to another entity/feed.
    - Performance enhancements in coding screen
    - Resolved issue related to saving tax codes in the rule screen.

Other Improvements

- Resolved reporting error for APS Charts.
- Resolved issue with saving images in report template.
