

Released Feb 2025.

Changes

- All forms, schedules and declarations updated to the latest ATO SBR Specifications:-
 - Non-Individual Income Tax Return (NITR) 2024 Package V1.8.
 - Non-Individual Income Tax Return (NITR) 2020 Package V1.8.
- We have renamed the menu item for 'Refund' to 'Estimate' for the Individual and Trust Tax returns
- Implemented the latest ATO package which corrects the 2024 Trust Form Item 47 Business name errors.

Minor Defects

- We have updated the process that locks the figures in a tax return once lodgment is successful. We are aware that, in some cases, the figures may have changed after lodgment. This release includes further fixes to address those reported issues.
- Corrected a unique situation whereby the Individual Tax Returns Tax Estimate may have been a difference between the onscreen calculation and the PDF Estimate.
- Updated the 2020 Company tax return and International Dealing schedule to display the ATO validation error CMN.ATO.IDS.440561.
- Added the missing Trust type V – 'CCV sub fund Trust' for the 2024 Trust Form.
- Updated the PDF generation tool to correct an issue where printouts may have errored by stating 'Failed to convert to pdf'.
- Addressed an issue where Activity Statement Lodgement reports was not displaying all the available Activity Statements.

Security

- Continuous security & performance updates have been applied.
